

MOST Ministries

Mission Opportunities Short Term

Globally, about 2.2 billion people have vision impairment or blindness states the World Health Organization. Of those people, 1 billion have an impairment that could have been prevented or hasn't been addressed. In many countries, a pair of glasses could cost someone an entire month's wage.

MOST Ministries eyeglass teams are the #1 requested project by our in-country hosts because after receiving a pair of glasses, children can see the chalkboard, adults can return to work, and grandparents can see their grandchildren often for the first time - and a common response is that they can read their Bibles again! Since 1991, MOST has distributed over 172,000 pair of eyeglasses all while sharing the Gospel.

How to get involved with the eyeglass ministry

Collect:

You can help by collecting eyeglasses at your church, school, place of employment, etc. and donate:

- Adult-sized glasses
- Children-sized glasses
- Non-prescription sunglasses

All donations can be mailed to:

655 Phoenix Dr.
Ann Arbor, MI 48108.

Volunteer:

Upon receiving the donated eyeglasses, volunteers at our Mission Center in Ann Arbor work through the process of sorting, cleaning, and reading the prescription strength all in preparation to send on a mission team. About 3,000 pairs of glasses and 500-800 sunglasses are sent on each eyeglass team.

Join a team:

Want to experience distributing glasses and seeing all the smiles after they can clearly see, possibly for the first time? Consider joining one of our mission teams - visit the team schedule on our website.

To learn more about the eyeglass ministry, visit our website or contact Kelly (MOST's Volunteer Coordinator) at kbone@mostministries.org
